

# Mask Storage & Reuse

With outside of cloth mask or surgical mask facing down:

- In a new, clean paper sack or plastic bag.
- In a clean, dry plastic Tupperware container.
- On a clean paper towel on a flat surface.

## OR

- Hang on a hook with outside of mask facing outward and mask not touching wall.

## DO NOT

- Touch outside of mask.
- Allow your mask to come in contact with other masks.

## SURGICAL MASKS

- DO NOT clean mask with disinfectant wipe or by submerging in water/liquid.

## CLOTH MASKS

- Wash daily using your regular wash cycle on the washing machine.

## OTHER POINTERS

- Change your mask if it is wet, soiled, frayed, etc.
- Mark your storage container and keep separate from others.
