

## Safe Sleep Pre-Implementation Staff Survey

1. Implementation and providing education to caregivers/families on importance of Safe Sleep is a high priority.

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

2. Reflux precautions should include positioning devices (i.e. wedges, slings, nests).

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

3. Swaddling techniques leaving the hips and legs loose is both effective and safe compared to tight papoose swaddling.

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

4. I routinely assess that my patients are in a Safe Sleep environment.

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

5. Safe Sleep practices as recommended by the American Academy of Pediatrics (AAP) are followed consistently by staff (i.e. Nurses, PCTs, MDs, Ancillary staff).

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

6. I feel confident in providing education and role modeling for caregivers/families on Safe Sleep practices.

Completely Agree    Somewhat Agree    Neither    Somewhat Disagree    Completely Disagree

7. I am knowledgeable of current Safe Sleep guidelines recommended by the American Academy of Pediatrics (AAP).

## Safe Sleep Pre-Implementation Staff Survey

Not at all knowledgeable      Slightly Knowledgeable      Somewhat Knowledgeable  
Moderately Knowledgeable      Extremely knowledgeable

8. Overall view of Safe Sleep practices recommended by the American Academy of Pediatrics (AAP) in 2011

Strongly oppose      Somewhat oppose      Neutral      Somewhat favor      Strongly favor  
Not Aware of recommendations

9. Which interventions do you feel are effective for reflux in infants? (Choose all that you feel apply)

Burping

Head of bed elevated

Upright after feedings

Smoke free environment

Not overfeeding

Other:\_\_\_\_\_

10. What barriers have you encountered in providing Safe Sleep practices with your patients and families? (Choose all that you feel apply)

Parents want to sleep with infants

Parent wishes for pillows blankets toys etc

Parent wishes for prone positioning or HOB elevated

Inconsistent information/practices at ACH

MDs/RNs not aware of guidelines/don't want to follow guidelines

Information given by outside pediatricians inconsistent with AAP recommendations

Other:\_\_\_\_\_
